

Math Placement for Students with GED scores (2014 or later)

Students who have completed a GED will need assistance placing into WCC math courses.

The following placement guide can be used. Ask the student to provide a printout of their scores or have them log in to their GED.com account and show them to you.

Then you can find their score, determine their goal course, and enroll them for the suggested course.

Placement Guide for students with GEDs

GED Score	Goal course	Suggestion
Below 145	any	ABE/HSC Courses
145-154	any	97
