

Install VMware Horizon Client – Windows

1. Google “vmware horizon client,” or go to:
https://my.vmware.com/web/vmware/info/slug/desktop_end_user_computing/vmware_horizon_clients/5_0
2. Look for the product **VMware Horizon Client for Windows** and click **Go to Downloads**
3. Click **Download**
4. Double-click the “**VMware Horizon.exe**” file in your **Downloads** folder.
5. Click **Agree & Install** if this is your first time installing, or **Agree & Upgrade** if you already have VMware installed, but need to update your version.
6. At the Success window, click **Finish**
7. Click **Restart Now**
8. Open VMware by double-clicking the VMware Horizon icon.
9. Click **Add Server** then enter: **desktop.whatcom.edu** and click **Connect**
10. **Double-click** the box that says **desktop.whatcom.edu**
11. Enter your WCC Student Network account Username and Password. (e.g. Username: *astudent1234*) Then choose **ORCA** for the **Domain** and log in.
